

EMERGENCY PHONE MOUNTS

ETP-SMW – Surface Mount Accessory for Wireless & Switched Power

Description

Talkaphone's ETP-SMW Surface Mount Accessory is an ideal security solution for remote and high-risk areas where wireless interface is desired. Any Talk-A-Phone emergency/information phone can be securely installed with a power charging system and/or a wireless interface in a single enclosure. The unit offers contemporary architectural styling and is constructed of durable stainless steel with a weather-protective hood. The Emergency Phone faceplate is illuminated at all times for clear visibility during the night.

Talkaphone's ETP-SMW Surface Mount Accessory is often used at university and college campuses, shopping malls, medical centers, industrial campuses, open parking lots and other locations with limited power and/or connectivity options.

Features

- Convenient and secure internal mounting of a wireless interface, a charger, a transformer, a battery, and other equipment
- A flush front panel provides easy access to the storage compartment
- A removable perforated aluminum plate is included inside the surface mount for easy mounting of other devices
- Emergency Phone faceplate is illuminated at all times by an LED Panel Light
- Vandal-resistant stainless steel construction
- Designed to resist extreme weather conditions
- A variety of signage, graphics and color choices are available
