WIDE-AREA EMERGENCY BROADCAST SYSTEM

WEBS-PA-2A – Outdoor Area Paging Unit For Analog WEBS®

Description

Talk-A-Phone's WEBS-PA-2A Outdoor Area Paging Unit for analog WEBS is an ideal security solution for outdoor areas where wide-area audio broadcast is desired. The unit can be used as part of the Talk-A-Phone's Wide-Area Emergency Broadcast System (WEBS®) to notify large masses of people of an event with an intelligent message.

Talk-A-Phone's WEBS-PA-2A Outdoor Area WEBS Paging Units are often used at university and college campuses, shopping malls, medical centers, industrial campuses and corporate facilities.

Features

- Remotely broadcast audio messages to a single unit, a group of units, or all at once through WEBS Zone Paging System (WEBS-ZPS)

- Two concealed high-power side speakers provide 180º coverage

- Attractive enclosure provides contemporary architectural styling

- Designed to resist extreme weather conditions
