## ETP-MT/R-AED Blue Light Phone Tower with Built-in AED Compartment

SISTANC

Ē

#### Description

The Blue Light Phone Tower with Built-in Automated External Defibrillator (AED) Compartment, Model **ETP-MT/R-AED**, provides outdoor access to a life-saving AED (sold separately), which can be unlocked through activation of the Call Station (i.e. initiation of a phone call) or remotely by an attendant.

#### **Features**

- Secured, recessed chamber to house AED unobtrusively
- Optional thermostatically controlled heater for AED compartment maintains temperature above freezing
- AED door can be either unlocked immediately at the initiation of a phone call or remotely by a guard as determined by the installer
- Available Key Reset Relay option allows the Blue Light to continuously flash until physically deactivated
- Offers contemporary architectural styling and prominent visibility
- Attention-getting LED Blue Light is included and mounted atop the unit. The LED Blue Light is continuously lit and flashes for the duration of a call when the "EMERGENCY" button is pressed to draw attention to the unit.
- LED Blue Light is housed in a protective polycarbonate housing (except for configurations with a camera arm)
- Two (2) ultra bright LED panel lights illuminate both the Call Station and the AED compartment door at all times
- Vandal-resistant structure and coating designed to resist extreme weather conditions
- A variety of signage, graphics, and color choices are available
- ADA-compliant

#### **Specifications**
